

# Were You Aware?

There are 3 different types of water available on Earth:

salt water, fresh water in glaciers and polar ice caps, and surface & ground water.

Predict the % of each type of H<sub>2</sub>O found on Earth.

Actual Data: Color in the actual % of each type of water found on Earth.

Color Code

**GREEN**

salt water

**YELLOW**

fresh water  
in  
glaciers  
& polar  
ice caps

**BLUE**

fresh surface  
& ground  
water
